KALASH HAI JAHA
SHUBH LABH HAI WAHA

AN ISO 9001-2015 CERTIFIED COMPANY

ELECTROPLATING TANKS

Built for Chemicals. Designed for Performance.

Kalash Electroplating Tanks are designed for high-performance chemical processing and metal finishing applications. These tanks are typically made from Polypropylene (PP) due to excellent corrosion resistance against acids and alkalis used in plating.

Used in: Electroplating (Nickel, Chrome, Zinc, Gold) Anodizing & pickling
Chemical processing industries

- ✓ High chemical resistance (acid & alkali safe)
- ✓ Custom size & shape available
- ✓ Leak-proof fusion welding construction
- ✓ Long life & low maintenance
- ✓ Compatible with heaters, agitators & pipelines

Our tanks are designed keeping industrial safety standards in mind, ensuring secure handling of chemicals and minimizing leakage risks during operation.

Applications :-

- ✓ Automobile plating units
- ✓ Jewellery plating
- ✓ Electronics finishing
- ✓ Chemical & pharma industries
